WORK EXPERIENCE

Front End Developer **Offcite**

June 2017 - Present / Downers Grove, IL

- Consult with clientele to redesign websites based on their individual needs.
- Use HTML5 & CSS3 to create custom website layouts and designs that cannot be accomplished with the default template-editing tools.
- Create & implement lightboxes, slideshows, & other functional objects using JavaScript.

Freelance Web Designer

July 2016 - Present

- Walk the client through the design process, from wireframing to a finished product.
- Design & develop websites with a focus on cross-browser compatibility and responsive design.
- Design logos and other branding graphics for use in digital and print marketing materials.

Web Support Specialist **TherapySites**

Dec 2015 - June 2017 / Downers Grove, IL

- Create example page layouts to show prospective clients the level of template customization available.
- Use HTML5 & CSS3 to fulfill client requests that cannot be done within the template editor.
- Offer general technical support for the template editor, DNS issues, the email system, etc.
